# HOW TO BUY...

**☎ 008 252 872** Call toll free if outside 02 area

You can simply visit one of our stores, or if you are in the country and have a credit card you can purchase over the phone with **SAFE** and **GUARANTEED** delivery to any address in Australia. Call NOW toll-free 008 252-872 or in the 02 area code simply call the store direct. Safe, fast and secure delivery of any telephone order is **GUARANTEED** with all goods carefully packed and insured so you can call with total confidence. We ship 100's of items a week to all Australian States.

If you don't have a credit card you may order by post by filling in the mail order form below. For mail orders on the sale items included in this catalogue we can **ONLY** accept Postal Orders or Bank Cheques. Postal Orders are available from any Post Office. Bank Cheques are available from your Bank, Building Society or Credit Union. Simply fill out the form below and post it with your payment to the applicable Venue Music store. Please don't forget to include the freight cost. (NB: please see chart and read text below about freight to your area.)

**IMPORTANT:** As some stock is limited, all items in this catalogue are sold on a first come, first served basis. This means that personal shoppers or telephone ordering by Credit Card will be the quickest method of securing your purchase. If we receive a mail-order for an item that is sold out, we will call you immediately.

**VERY IMPORTANT:** All sales made from this catalogue are **FINAL**. NO exchanges, NO returns, NO refunds. Please choose carefully. Some items are ex-demo or shop soiled. This is why we are selling so cheaply. Some items may be sold out prior to you to receiving this information. Venue Music will not be held responsible for any errors in description, pricing or illustrations contained in this catalogue. Our normal 7-day free trial period does not apply on these sale items.

## ZOOM 9000 Advanced Guitar Effects Processor: Features

Standard MONO INPUT (1/4") also acts as automatic on/off switch.

Sure the 9000 looks great. But underneath the sleek, durable, and compact case is what makes the 9000 a ZOOM: Advanced digital signal processing, with some of the most musical-sounding and dynamically expressive algorithms ever developed.

Create your own custom sounds, and store them in the 9000's 20 user-programmable PATCH MEMORIES. Recall any factory preset instantly.

Enter or exit EDIT mode—or cancel any command—faster than you can say ZOOM.

To get real full-bodied amplifier tones—from warm to sizzling to raunchy—you can push around a 150-pound stack. Or you can push the 9000's AMP SIMULATOR button.

Yes, you can take it with you. Runs off six AA batteries (included), or our optional AC power adapter.

Your choice: STEREO or MONO OUT (1/4").

Feel like company? MIX INPUT lets you play along with your favorite CD, cassette, or DAT.

STEREO HEADPHONE JACK (1/8"). Perfect for practice, rehearsal, or private monitoring.

POWER INDICATOR flashes when batteries are low.

The 9000's Liquid Crystal Display is oversized, to give you all the information you need.

Cursors (±) control master volume in PLAY mode, or select effect types in EDIT mode.

Activate the fully professional IN-LINE TUNER when you bypass the effects. Now why hasn't anyone thought of this before?

In EDIT mode, the BANK and PATCH SELECT keys let you pick your own combination of effects modules—up to five at once. Customizing any of the 21 effects is a breeze.

There are four PATCHES in each bank. Groove to 20 of the sweetest factory presets you've ever heard.

Scroll through five BANKS in a flash with these rapid-access keys.
